'ROSHANARA'
MERCARA,
COORG.

Dear Hamilton Brown

3 August, 1956.

I thank you for your letter and the very nice drawing of the airmail label. The label has been done very well; but I think the colour of the sky and of the land should be different. However, I have sent on your drawing to the Director-General of Posts & Telegraphs in New Delhi and have asked him to let me know what he thinks of it. I hope he will take it up seriously and produce a more attractive airmail label ~~and from the~~ ^{than} very original one we have now.

When I was in Delhi, I spoke to the Minister of Education about you. He asked me to get a full report on your doings at the school of art and said that he would then consider my request to him to try and send you ~~for~~ on foreign scholarship. I am now writing to the Dean of the School to send a full report about you with the recommendations to the Minister direct, sending me a copy of it. Let us wait and see the results.

I am glad to hear that you have now been allotted a seat in the Mural Decoration Class which is a post diploma course for one year and that you are getting a scholarship from the Bombay Government. Good show. I wish you every success in this too. Whom did you write to at Army Headquarters asking for permission to allow you to continue one more year at the School and when did you write it? Send your father my best wishes.

Good luck to you always,

Sam Singh
